Please contact our friendly staff on 1300 407 352 for details or to book your spot.

Standard 11 – Generic Surface Induction

Objective

The Standard 11 – Generic Surface Induction course provides training on the skills and knowledge required for working in surface coal mines, under the Queensland Government Mines Inspectorate's Recognised Standard 11 (*Qld Coal Mining Safety and Health Act 1999*).

This entry-level course is essential for those wishing to begin work in Queensland's mining industry. The Australian Rescue and Safety Group is a licensed RTO and industry-recognised as a leading provider of high quality Mining, Construction, Oil and Gas courses and services. Our Standard 11 – Generic Surface Induction training program, is applicable for both coal and metalliferous mines. This includes the 6 nationally recognised units of competency required to meet the training needs of the Standard 11 for induction. This course enables both experienced and inexperienced workers a pathway from which they can enter, or remain current within the mining industry in Australia.

Delivery

Upon request, ASRG Group are able to provide flexible delivery options whilst meeting national standards of compliance and safety.

- Highly experienced trainers and facilitators (Rescue Coordinators) who are at the top of their fields
- Group booking discounts apply
- Courses run **weekly/monthly**
- Course times between **8am-4pm**
- **2 day** course, flexible to learners who may need **more** to complete
- Classroom and onsite training
- Corporate packages.

Locations

ASRG requires a minimum of 3 students in order to run classes.

Available training locations include:

Gold Coast

Fyre Power
9/53 Casua Drive
Varsity Lakes 4227

Sunshine Coast

The Jessica Center
3/66 Jessica Blvd
Minyama 4575

37 McArthur Avenue
Hamilton 4007

ASRG is available to conduct training and courses at the premises of industry clients providing there are suitable industry training facilities to do so. Please feel free to contact ASRG to arrange or enquire about training at your worksite.

Accreditation

The Standard 11 – Surface Induction course is delivered in a standard lecture format with a qualified Highly experienced Trainer. This includes demonstrations and active participation by both the trainer and students. Theory components including written assignments will also be an essential element of this course. The Standard 11 – Surface Induction Course Includes the following 6 nationally recognised units of competency:

- **RIIWH5201D** Work safely and follow WHS policies and procedures
- **RIICOM201D** Communicate in the workplace
- **RIIRIS201D** Conduct local risk control
- **RIIGOV201D** Comply with site work processes/ procedures
- **RIIERR302E** Respond to local emergencies and incidents
- **RIIERR205D** Apply initial first aid

Upon successful completion, graduates of the course will receive a Statement of Completion as well as an ID card to signify your eligibility to enter a mine for the purposes of employment. Once employment is achieved, the employer must sign-off on third-party tasks performed on-site with the site supervisor and brought back to ASRG Group to receive your Statement of Attainment.

This skill set can provide credit toward a number of **Certificate II and III Qualifications** in the **Resources and Infrastructure Industry Training Package**.

Course Includes

- Generic induction
- Perform pre-start and post-start inspections/checks
- Australian Standards, Codes of Practice & Legislation
- Select and wear personal protective equipment appropriate for work activities
- Workplace communication
- Risk management & safety requirements
- Recognising workplace hazards
- Isolation and tagging procedures
- Traffic and mobile equipment procedures
- Applying initial first aid
- Fire fighting
- Emergency response procedures
- Refresher requirements

It is a requirement that the Standard 11 refresher course be attended once every 5 years to enable all industry members to stay current with the skills and training necessary to work within the mining industry.
